Built for Versatility and Durability

Federal Signal’s Evacuator® Plus (dual tone) back-up alarms are engineered to provide dependable performance and exceptional warning power across a diverse range of vehicle and material handling equipment requirements. Built to withstand the most punishing applications, these alarms feature piezo-electric circuitry and solid-state components that reduce Amp draw (as low as 0.02A @ 12VDC), and minimize the adverse effects of shock and vibration.

Multiple Options to Fit Your Needs

Evacuator Plus is the right back-up alarm for applications where two tones are better than one. The dual-function feature supplies Evacuator Plus with the ability to produce two distinctively different tones.

Dual-function Evacuator Plus models can be ordered for applications ranging from 87dB to 112dB thereby providing users with the flexibility to meet their most precise warning requirements.
